

Elektronik automotive

Fachmedium für Entwicklungen in der Kfz-Elektronik und Telematik

MEDIA GUIDE

2012

Online
geprüft

1 Title: Elektronik automotive

2 Characteristics:

2012, another year of acceleration of the successful media brand Elektronik automotive in print, online and events. Monthly Elektronik automotive informs in-depth about future-oriented solutions, concepts and products in automotive electronics. The positive response of our readers prove Elektronik automotive's importance as reliable information source for the decision makers in automotive electronics – design engineers and managers in vehicle construction and its subcontracting industries.

The automotive channel of www.elektroniknet.de runs high speed. 12 million IVW-Online audited page impressions per year (September 09 - August 10) make elektroniknet.de the most frequented media site for professional electronics. PLUS: the weekly Automotive-newsletter to more than 55,000 recipients which provides latest trends, product news and expert knowledge – a premium platform for successful market communication. The Elektronik automotive congress presents the strength of innovative exhibitors and sponsors. Highly qualified speakers create a technically sophisticated program for all attendees. Elektronik automotive, the first choice for the most-targeted approach of the automotive electronics community.

3 Target group:

„Elektronik automotive“ is the information source for the decision makers in automotive electronics – the design engineers and managers in automotive manufacturing and supply industry.

4 Publication frequency: 12 issues + 1 special issues

5 Format: A4

6 Volume: 12th volume 2012

7 Subscription rates: Domestic subscription: € 72.00
 Overseas subscription: € 84.00
 Single copy rate: € 9.00
 Shipping costs: € 3.00

8 Organ: -

9 Membership: IVW-EDA (certified audit of circulation)
 not for special issues.

10 Publishing house: WEKA FACHMEDIEN GmbH

13 Editorial office: Stephan Janouch, editor-in-chief
 sjanouch@weka-fachmedien.de

14 Editorial to advertising ratio: 2010 = 11 issues
total pages: 790 pages = 100 %
 editorial content: 633 pages = 80.07 %
 advertising content: 157 pages = 19.93 %
 therefrom bound inserts 2 pages
 loose inserts: 4 pieces

15 Editorial content analysis 2010 633 pages = 100% pages
 specialist articles: 382 pages = 60.36 %
 product news 56 pages = 8.85 %
 technology + trend news 82 pages = 13.00 %
 economy news 29 pages = 4.58 %
 specials (f.e. K-Ing.) 27 pages = 4.27 %
 others (editorial, content, tableau of preview, imprint, advertiser index) 57 pages = 8.93 %

1 Circulation audit:

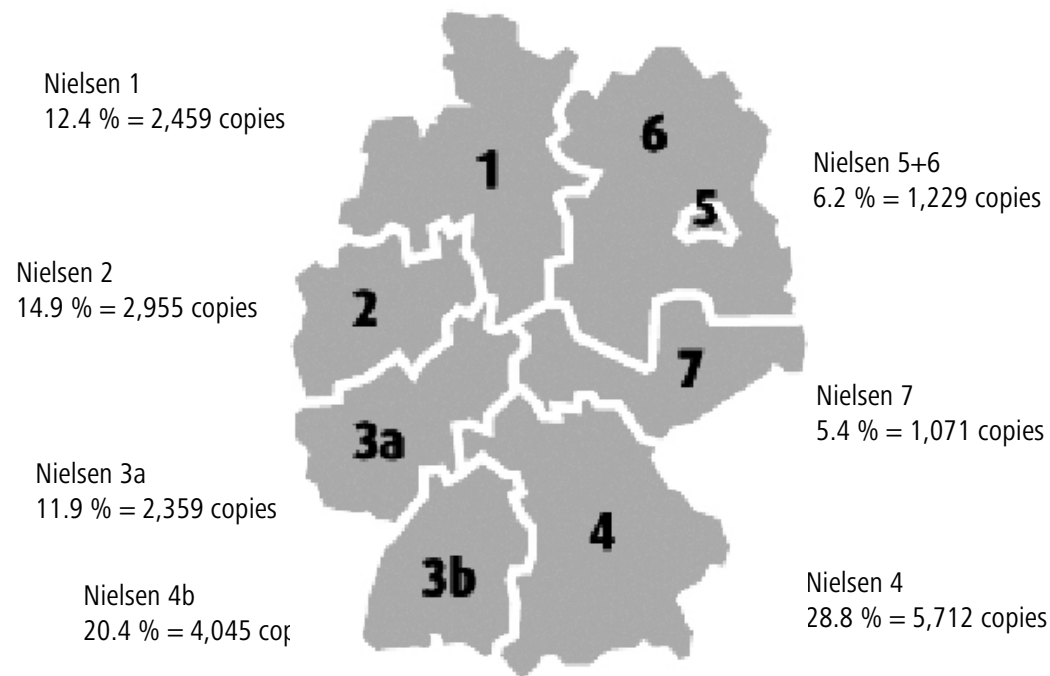

2 Circulation breakdown: copies per issue/annual average
 (July 1st 2010 to June 30th 2011)

print run:	20,633	
total circulation:	20,012	abroad: 182
sold circulation:	1,921	abroad: 53
subscriptions:	475	
retail:	-	
other sales:	1,446	
controlled circulation:	18,091	
remainder, archive and voucher copies:	622	

3 Geographic circulation breakdown:

economic region	share of total circulation	
	%	copies
Germany	99.1	19,830
Switzerland	0.2	40
Austria	0.3	61
other countries	0.4	81
total circulation	100	20,012

3.1 Structure of the domestic market circulation by Nielsen-areas

Abstract of methodology

- 1 Method: circulation breakdown by file analysis – census
 - 2 Universe: total circulation Germany 19,830=100%
 - 3 Sample: census
 - 4 Target person of survey: omitted
 - 5 Period of analysis: July 2011
 - 6 Conduction of analysis: publisher
- Detailed methodology: www.next-community.de

Business sectors

Group of recipients	Share of total circulation projection (approx.)	
	percent	
automotive manufacturer	24	4,800
systems supplier (Tier I)	41	8,200
components supplier (Tier II)	46	9,210
hard- and software supplier (Tier III)	55	11,010
service	43	8,610
production technology	21	4,200
measurement and control technology	35	7,000
chemical industry, mineral-oil processing	3	600
precision and optical goods	10	2,000
transport (air, ship, railways)	8	1,600
vehicle design (water, air, roads)	11	2,200
consulting engineering firm for techn. planning	19	3,800
organisations	3	600
total distributed circulation		20,012

Multiple answers

Size of economic entity

	Share of total circulation projection (approx.)	
	percent	
1 - 9 employees	24	4,810
10 - 49 employees	14	2,800
50 - 99 employees	4	800
100 - 499 employees	18	3,600
500 and more employees	40	8,000
rounding difference		2
total distributed circulation	100	20,105

Main field of work

Group of recipients	Share of total circulation projection (approx.)	
	percent	
development, design	82	16,410
testing, proving	40	8,000
research	41	8,200
management	28	5,600
corporate and technical management	30	6,000
purchasing, technical procurement	23	4,600
quality control, quality assurance	27	5,400
organisation, data processing	14	2,800
production, manufacturing	15	3,000
production management	9	1,800
service, maintenance	7	1,410
total distributed circulation		20,012

Multiple answers

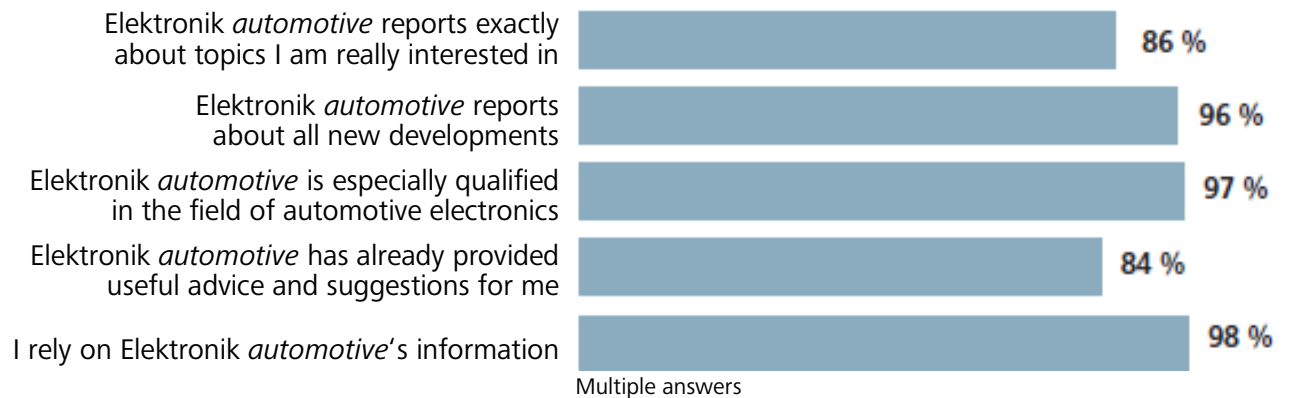

Product fields with planned investments (within next 12 months)

Readers loyalty: Elektronik automotive is very good concerning...

Readers loyalty: agreement to statements

Summary of the survey methodology for the structure analysis

1 Methodology of the survey:

Structure analysis by telephone survey (C.A.T.I.) - sample survey

The survey refers in composition, realisation, coverage and reporting to the official guidelines for media analysis from the German Advertising Federation (ZAW).

2 Description of the recipients at the time of the data collection

2.1 composition of the database

The addresses of all recipients are recorded in the recipients database. Due to comprehensive recipients qualifications the database can be sorted by zip-codes, by domestic and overseas recipients as well as by detailed demographic criteria.

2.2 total number of recipients in the database: 53,708

2.3 structure of recipients of an average issue by type of distribution:

- sold circulation		1,560
of which:		
subscriptions	558	
other sales	1,002	
- controlled circulation		18,552
of which:		
constant free circulation	255	
changing free circulation	18,297	
- total circulation		20,112
domestic	19,946	
abroad	166	

3 Description of survey:

3.1 universe (analysed share)

universe (total circulation)	20,112 = 100.0 %
of which not analysed in survey:	301 = 1.2 %
other sales	301

survey represents of universe (total circulation)	24,447 = 98.8%
---	----------------

3.2 Date of data analysis: September 10th, 2010

3.3 Description of the sample:

Survey is based on random sample drawn from total database.

gross sample: 367 cases = 100.0 %

shortfall:	110 cases = 30.0 %
- refusal due to time constraints:	35 cases = 9.5 %
- cancellation of interview:	18 cases = 4.9 %
- refusal of interview:	29 cases = 7.9%
- target person not available:	28 cases = 7.6 %

net sample (avaluable number of cases): 257 cases = 70.0 %

3.4 Target person of survey: recipients of the magazine

3.5 Definition of reader: omitted

3.6 Period of analysis: September 15-30, 2011

3.7 Conduction of analysis: IFAK-Institut für Markt- und Sozialforschung, Taunusstein

The leading IVW audited website for professional electronics in the German speaking market!

Page Impressions according to IVW-Online in electronics segment: elektroniknet.de overall leadership in electronics!

IVW is the official independent German institution which monitors the use of online advertising media. According to IVW Online elektroniknet.de is by far the leading web service in the segment professional electronics in Germany.

Already since 1998 elektroniknet.de reports 24/24 hours about all important trends, products and company news of the whole electronics world. Behind the scenes elektroniknet.de is fed by the largest editorial team of electronic pros. Almost 30 specialized editors feed elektroniknet.de with news, product reports and knowledge. The performance data of elektroniknet.de is impressive – 13.2 million page impressions in the last 12 months, almost 30,000 news and product releases, about 10,000 companies within the supplier database. Eleven competence centers offer tailor made information for decision makers – from automation, automotive, components, distribution and embedded to e-mechanics, communications, measurement, opto and power.

elektroniknet.de's success is particularly justified by its content adjusted to its target group, developers, purchasers and managers in electronics. News, products and reports from the whole electronics world are presented in all forms of web-relevant data formats. elektroniknet.de provides its users with news feeds, database supported listings, blogs, closed forums, whitepapers and webcasts. The elektroniknet.de-newsletter addresses actually about 50,000 electronics decision makers – with an upward trend.

elektroniknet.de offers pinpoint communication possibilities to advertisers: banner advertisement, sponsoring, newsletter advertisement, presentation of important dates, webcasts, whitepapers and many other formats help suppliers in electronics to increase their communication success.

Page impressions (monthly average) in electronics (according to IVW-Online):

elektroniknet.de – the leading media site in professional electronics

Copytest – Control your ad’s impact!

For all media experts who want to know what design engineers and technical managers think about their ads, products and image Elektronik *automotive* offers exclusive copytests.

Elektronik *automotive*'s copytests report about content and design of advertisements. More than that, copytest participants receive a concise image analysis on top.

Elektronik *automotive*'s copytests answer important questions such as “Do customers pay attention to my ad?”, “What information about my company is retained by the reader?” and “Does this ad help to get customers interested in my products and company?”

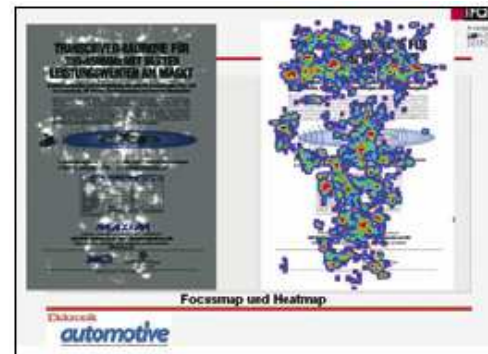

Customized publishing

Elektronik *automotive* offers all forms of customized publishing: personalised letters, advertising in the automation newsletter. You will be amazed by the variety and efficiency of our advertising possibilities.

Eye Tracking

While copytests measure processed, retained information Elektronik *automotive*'s eye tracking analysis show pure reception of information.

Eye tracking is a special version of the so-called eye flow analysis. You can look at your own ad from your customers point of view! The advertiser gets important information about the entry into the ad, duration of observation and eye flow.

Elektronik *automotive* congress, your event for future-oriented solutions, concepts and products for automotive electronics.

We will be glad to arrange your customer specific events, too.

For further information on service tools please visit www.elektroniknet.de/media or contact your Elektronik *automotive* sales representative via Phone +49 89 25556-1383.

General Terms and Conditions for Advertisements and Advertising of WEKA FACHMEDIEN GmbH (August 2011)

1. An "order" in the sense of the general terms and conditions that follow is a contract relating to the publication of one or more advertisements of an advertiser or other advertising space buyer in the magazines of the publisher for the purpose of distribution, and to the placement of online advertising on the web sites of the publisher. These terms and conditions will also apply to an order for third-party inserts in the magazines brought out by the publisher. Online advertising will cover banners, pop-ups, special interest and keyword placements.
2. Differing, conflicting or supplemental general terms and conditions of advertising clients will not be recognized as an integral part of the contract, that is unless the publisher expressly agrees to them.
3. The publisher may alter these terms and conditions at any time. They will inform their clients in good time of any alteration, at the latest one month in advance. The publisher is authorized in particular in the event of the inoperativeness of a term or condition, to add to or replace the latter with effect for existing contracts, and upon the alteration of a legal provision or supreme court decision if said alteration affects one or more terms and conditions of the contractual relationship, to adapt the affected terms and conditions to suit the purpose of the altered legal situation.
4. The order will be concluded with the acceptance of the client's order by the publisher. Such acceptance may be in writing or by e-mail.
5. Should an advertising agency commission advertising orders on behalf of third parties, the contract will be concluded strictly with the advertising agency and not with its ordering party. If the ordering party of the advertising agency is to be the contractual partner, it will be named by the advertising agency as the ordering party and the issue of an order to the advertising agency verified in writing.
6. Advertising brokers and advertising agencies are duty bound to abide by the price list of the publisher in their proposals, contracts and billing with advertising parties. The commission granted by the publisher may not be passed on to the client, either wholly or in part.
7. The client is not entitled to the inclusion of advertisements in certain numbers, certain editions or at certain places of magazines. The publisher is free to insert an advertisement at a suitable spot, that is unless insertion was agreed for a certain number, in a certain edition or for a certain place of the particular magazine. The requirement for this is punctual availability of the ready to print copy. If the order cannot be performed in the particular number, the particular edition or at the particular place of the magazine, the publisher is authorized to insert in another number at a suitable spot. Categorized ads will be printed in the particular column without the need for an express agreement.
8. Placement of online advertising will be made as reasonably seen fit with the greatest possible consideration of the client's interests. The client is not entitled to placement of online advertising at a certain position of the particular web site. The publisher reserves the right to change the date of appearance of online advertising for technical or other comprehensible reasons.
9. The client may cancel orders for online advertising after conclusion of the contract. Cancellation must be in writing. The publisher will terminate insertion of the online advertising immediately after receipt of the cancellation.
10. Cancellation until two weeks before the commencement of insertion is free of cost. In the event of cancellation within a shorter term the publisher is entitled to bill the following costs:
 - 30% of the net value of the order for cancellation less than two weeks before the commencement of insertion;
 - 50% of the net value of the order for cancellation within one week of the commencement of insertion;
 - for cancellation after the commencement of insertion 50% of the net value of the order that is still due at the time of terminating insertion of online advertising. The price of online advertising already inserted will also be billed.
11. Different to the above provisions, cost-free cancellation of scheduled postings is only possible until two weeks before the date of insertion at the latest.
12. The publisher reserves the right to decline advertisement orders, also single insertions, advertisement texts and supplement orders because of the content, origin or technical form according to uniform, factually justified principles of the publisher if their content violates laws or official stipulations, or their publication is unacceptable for the publisher. Supplement orders are not binding for the publisher until the presentation of a specimen of the supplement or their approval. Supplements that create the impression with the reader, through their format or layout, of being a constituent part of the magazine or that contain third-party advertisements will not be accepted. Refusal of an order will be communicated to the client immediately. Advertisements that are not recognizable as advertisements because of their editorial composition may be identified by the publisher by the word "Anzeige" [Advertisement]. In as much as online advertising is not obviously advertising, the publisher may also identify it as such, in particular by the word "Anzeige" [Advertisement], and/or set it off from the editorial content to make its advertising nature plain.
13. The client is responsible for punctual delivery of proper ready to print copy or supplements or for punctual delivery of materials required for online advertising. In the case of digital ready to print copy the client undertakes to deliver proper copy, complying in particular with the format or the technical specifications of the publisher, punctually for the print copy deadline.
14. All services rendered by the publisher are subject to punctual fulfillment and execution of obligations and assistance on the part of the client. In the case of audio and/or video linked advertising (e.g. banners that cause a pop-up window to open when clicked on, in which audio and/or video content is reproduced) the client is responsible for concluding the necessary agreements with GEMA [society for musical performing and mechanical reproduction rights in Germany] or other copyright associations and/or owners.
15. In cases where a number of related files are sent, the client will ensure that these data are sent and/or saved in a common directory (folder).
16. Digitally transmitted artwork for color advertisements can only be reliably processed with a color proof supplied on paper. Differences in color are unavoidable without a color proof, but are no entitlement to a price reduction. In every case a printout is to be sent by fax to the print shop to be able to check factual correctness. The client must expressly request a faxed correction. Only correct color adjustment ensures correct color implementation within the usual tolerances.
17. Before a digital transmission of artwork the client is responsible for ensuring that the transmitted files are free of any computer viruses. Should the publisher discover computer viruses in a file transmitted by e-mail, said file will be deleted immediately without the possibility of the client making any related claims. The publisher also reserves the right to claim for damages of the client should the publisher suffer damages as a result of such computer viruses being infiltrated by the client.
18. If artwork is transmitted to the publisher digitally by a data medium, it will only be returned on special request to the client.
19. Discernibly unsuitable or damaged ready to print copy and/or advertising material will be replaced by the client immediately when requested to do so by the publisher. The cost of producing ordered ready to print copy and/or of producing ordered advertising material and of substantial alterations to originally agreed versions that are wished by the client and for which the latter is responsible because of the technical quality of the supplied ready to print copy and/or advertising material will be borne by the client. Should any deficiencies in the ready to print copy and/or advertising material not be immediately discernible but only become so in the printing operation and/or upon insertion, the client is not entitled to raise any claims for an inadequate impression and/or poor insertion.
20. The client avouches that they are the unconditional owner of all rights of use to the advertising material necessary for publication and distribution. In this respect they indemnify the publisher from all claims by third parties, and grant the publisher the rights of usage necessary for publication of the advertising material.
21. The client avouches that they are entitled to set the hyperlinks connected to the online advertising. The client furthermore affirms that they will abide by the applicable data privacy legislation – in particular of the Federal and Teleservices Data Protection Act – and also impose such a responsibility on their employees. Should the client use special techniques such as cookies or tracking pixels to obtain or collect data from the insertion of advertising material in the online offering of the publisher, the client also affirms that they will abide by the precepts of the German Telemedia Act (TMG) and/or of the Interstate Broadcasting Treaty (RfStV) as well as the Federal Data Protection Act (BDSG) in the collection, processing and use of personal data.
22. In the event of wholly or partly illegible, incorrect or incomplete impression of an advertisement, the client may claim impression of a faultless substitute advertisement, but only to the extent to which the purpose of the advertisement was adversely affected. Should the publisher allow a reasonable term set them for this purpose to pass by, or if the substitute advertisement is again not free of faults, the client may claim a reduction of payment (abatement) or cancellation of the order (rehabitory action).
23. In the event of insufficiencies in online advertising the publisher will initially of their own choice offer rectification or replacement. Should subsequent fulfillment fail, the client may of their own choice demand a reduction of payment (abatement) or cancellation of the order (rehabitory action).
24. The client must report evident insufficiencies of online advertising in writing within three workdays after said online advertising goes live; otherwise a warranty claim may no longer be enforced.
25. In other respects the publisher is only liable in as much as they, their auxiliary persons and/or legal representatives are accused of deliberate or grossly negligent behavior. This does not apply in as much as the publisher violates principal obligations of the contract.
26. In cases of petty negligence the publisher and/or their auxiliary persons and legal representatives cannot be held liable for financial losses especially in terms of consequential damages, unpredictable or atypical damages and loss of profit. Otherwise in the event of financial losses in cases of petty negligence the liability of the publisher is limited to the payment to be made by the client. For claims under the Product Liability Act and for injury to life, body or health the publisher is liable according to statutory provisions.
27. All claims by the client of the publisher resulting from malperformance or insufficiencies of online advertising expire one year after the origination of such claims, that is unless they are founded on claims of deliberate negligence.
28. Proofs will only be supplied if expressly wished. The client bears responsibility for the correctness of the sent proofs. The publisher will include all error corrections of which they are informed by the print copy deadline or within a term agreed upon by the two parties.
29. If no particular sizes are specified, pricing will be based on the actual impression height that is usual for the type of advertisement.
30. If the client does not pay in advance, the invoice will be sent immediately or within 14 days of publication of the advertisement. Prices for advertising material are taken from the valid price list. Price reductions resulting from changed terms and conditions apply immediately to ongoing orders, price increases one month after announcement of the terms and conditions. If payment for online advertising is billed on a CPM basis, the publisher will inform the client on request of the number of ad impressions, the ad clicks and the ad click rate (ratio of ad clicks to ad impressions) of the web sites where the online advertising of the client is placed or, if payment is billed on a pay-per-click basis, of the number of actual clicks.
31. Payment is due within the term shown on the price list, that is unless from case to case a different term of payment or advance payment is agreed in writing. Any discounts for early payment are granted according to the price list. Agreed or allowed discounts for the insertion of a number of advertising means or upon the conclusion of blanket orders are only valid if the particular quantity and the time frame are adhered to. Upon non-adherence to the agreed quantity or time frame, the publisher is entitled to recalculate the discount proportionally to the difference between the discount granted and that corresponding to the actual quantity.
32. Upon default of payment or granting of a respite, interest of 8% above the prime lending rate will be billed or, if the client is a consumer in the sense of para. 13 of the German Civil Code, of 5% above the prime lending rate. Upon default of payment the publisher may put further execution of the current order on hold until payment, and demand advance payment for remaining advertisements. If there are well-founded doubts about the solvency of the client, the publisher is entitled even during the running time of agreed advertisements to demand advance payment of the amount due when the advertisements are completed and payment of any outstanding invoices, regardless of any originally agreed time for payment, before publishing any further advertisements.
33. On request the publisher will supply an advertisement proof. Depending on the nature and scope of the advertising order, advertisement cutouts, proof pages or complete proof numbers will be supplied. If a proof can no longer be obtained, it is replaced by legally binding certification by the publisher of the publication and distribution of the advertisement.
34. In the case of box number advertisements the publisher applies due diligence in safekeeping and forwarding the offers. Registered letters and express letters in response to box number advertisements are only forwarded by regular mail. Receipts from box number advertisements are kept for four weeks. Letters that are not collected during this time are destroyed.
35. If a joint discount is claimed for affiliated enterprises, written evidence of the affiliation status of the client is necessary. Affiliated enterprises in the sense of this condition are enterprises between which there is a capital share of at least 50%. Evidence must be produced before claiming such a joint discount. Joint discounts for affiliated enterprises are subject in every case to express written confirmation by the publisher. Termination of the affiliation of an enterprise is to be reported immediately; termination of the affiliation of an enterprise also terminates any joint discount.
36. The publisher is not responsible for delays in performance resulting from force majeure (strike, lockout, disruption of operations, etc). After removal of the obstruction the publisher can immediately publish advertisements in the next possible issue of the publication and online advertising, or wholly or partly withdraw from the contract. The client has no right to claims for compensation.
37. Alterations or additions to these general terms and conditions must be communicated in writing, by telefax or by e-mail. That also applies to alterations to this clause.
38. Any inoperativeness of a term or condition of these terms and conditions shall not affect the operativeness of the remaining terms and conditions. An inoperative term and condition is to be replaced by a term and condition that comes closest to the intended business import of the term and condition now considered inoperative.
39. The place of jurisdiction is that of the registered office of the publisher if the client is a merchant in the sense of the code of commercial law, a legal person governed by public law or a special fund under public law. The same shall apply in as much as the client, upon filing an action, possesses an office or a habitual residence in the Federal Republic of Germany.
40. The legal code of the Federal Republic of Germany shall be applicable under exclusion of the United Nations Convention on Contracts for the International Sale of Goods.
